

Dear FCC

I am writing to urge you to reject petition 04-160. I listen to XM radio at home and the car. However, for local traffic I do use both XM and my local AM stations. Any restriction of XM service is ridiculous. Xm covers such a broad area, especially the D.C. and Baltimore area that local radio is still used. They both serve a need. Let the market play out.

Sincerely,

Charles V. Rogers
